

Build it. Better. Together.

COBURG SKYRAIL

All of us in Coburg & Brunswick want more parks, safer places, & bike paths fit for 21st century Melbourne.

The State Govt will soon spend millions on a rail-over-road (Skyrail) project, replacing stations & level crossings from Moreland Rd to Bell Street.

But the State Govt's plans will short-change our community, destroy trees & heritage without improving train & bus services or the bike path.

"Unless the community demands better, we'll get little more than painted concrete"

Councillor Sue Bolton,
Moreland Council

This is a once in a lifetime chance to improve our backyard.

Join in and help get a great 21st century Skyrail for our community

WE WANT

- *Fantastic social spaces underneath for kids and families.*
- *Safe entry to the stations from both sides of busy roads.*
- *Better connections between buses and trains.*
- *A 21st century Upfield Bike Path with safe road crossings (Veloway).*
- *Railway heritage preserved and reused.*
- *Great new parks and protection for existing trees.*
- *Protection for health and privacy of people living along the line.*

1 Join our community Facebook group - **Upfield Corridor Coalition** - to stay up-to-date:
