

Save Gandolfo Gardens from LXR!P!

Let's fight this together

Community Festival and Camp-in

Family-friendly festival & overnight camp-in under the stars

When: **4pm Saturday 18 January 2020 (camp overnight)**

Where: Gandolfo Gardens, next to Moreland Station

There will be food, music and kids' activities (no alcohol)

Bring a picnic. If camping, a tent, sleeping bag and pillow

- Labor's Minister Jacinta Allan wants to needlessly kill 100+ trees at Moreland and Moreland Stations to build SkyRail. We're in a climate emergency!
- Alternative methods would save most trees and improve the project for train users, bike riders, pedestrians, and residents. But we've been ignored.
- Let's get together for a visual and defiant act of community strength and unity.

Let's fill the park with music, people and tents!

Can't make the rally?

Only 14% of Moreland is covered with tree canopy, one of the lowest in the state. How can the State Government clearfell an entire park during a climate emergency? The plan also contravenes council's own heritage, heat island and forest strategies.

These projects can always be changed by politicians, especially in response to strong community opposition.

Just recently, the LXP announced design improvements to the bike and pedestrian paths in response to sustained, vocal community pressure.

Now is our chance to persuade Minister Allan to change the location and design of the train stations, which will:

- Reduce the number of trees that need to be destroyed
- Improve train station access
- Reduce impacts to the heritage stations
